LUCY ROOP

(616) 990-5615 | rooplu@mail.gvsu.edu | Grand Haven, MI 49417

Education

B.S. Computer Science | Expected: December 2027
M.S. Applied Computer Science | Expected: August 2028
Grand Valley State University
GPA: 4.0 / 4.0

Coursework: Data Structures and Algorithms, Systems Programming, Database, Computer Organization, Programming Languages, Software Engineering

Technical Skills

- Languages: Python, JavaScript, TypeScript, SQL, C, HTML/CSS
- Frameworks & Tools: React, React Native, Tailwind CSS, Git, Firebase/Firestore, Google Cloud, Figma
- Practices: UI/UX Prototyping, LLM Integration, Prompt Engineering, Regression Testing

Experience

Software Developer | Blue Nucleus: GVSU CIS
May 2025 - Present

- Built and shipped features for a live pilot of ~50 users, turning client needs into prototypes and iterating on stakeholder feedback.
- Presented demos and design solutions to client stakeholders and delivered code updates and bug fixes throughout live pilots.

Projects

Promise Unlocked | AI-powered holistic college admissions app (React Native, React)

- Developed features that evaluate student experiences, rank evidence against a structured skills taxonomy, and support holistic student profiles.
- Independently designed and developed an administrative dashboard consolidating student profiles, AI chat logs, and achievement stamps, with PDF reporting.
- Designed custom student interfaces, including passport-inspired achievement stamps and radar-chart profiles.
- Led student app demonstrations and tested LLM behavior for FERPA-conscious privacy, safety, and reliability through structured regression testing.

Grady's Garden | AI-assisted nutrition education (React)

- Prototyped RAG-based access to curriculum content for AI-assisted nutrition education.
- Collaborated with clients to identify practical AI applications within existing educational workflows.
